

## Financial Planner's Pledge

We, the financial planners of Singapore, share a common vision to build an industry that is professional, ethical and dedicated to providing responsible and appropriate financial advice to Singaporeans of all ages and walks of life. In delivering our business practice, we believe and recognise that we have the delegated privilege and empowerment to impact and improve the financial future of our clients.

To achieve our vision, we pledge that:

1. We will place our clients' interests ahead of our own.
2. We will provide objective advice to maximise our customers' financial security.
3. We will operate with integrity and uphold high ethical standards to inspire our customers' confidence and trust.
4. We are committed to exercising due care, skill and diligence in the provision of financial planning services and ensuring that our conduct does not bring discredit to the profession.
5. We will continue to invest in education and training to enhance our service value.

Signature of Practitioner and date
